THE COMPANY

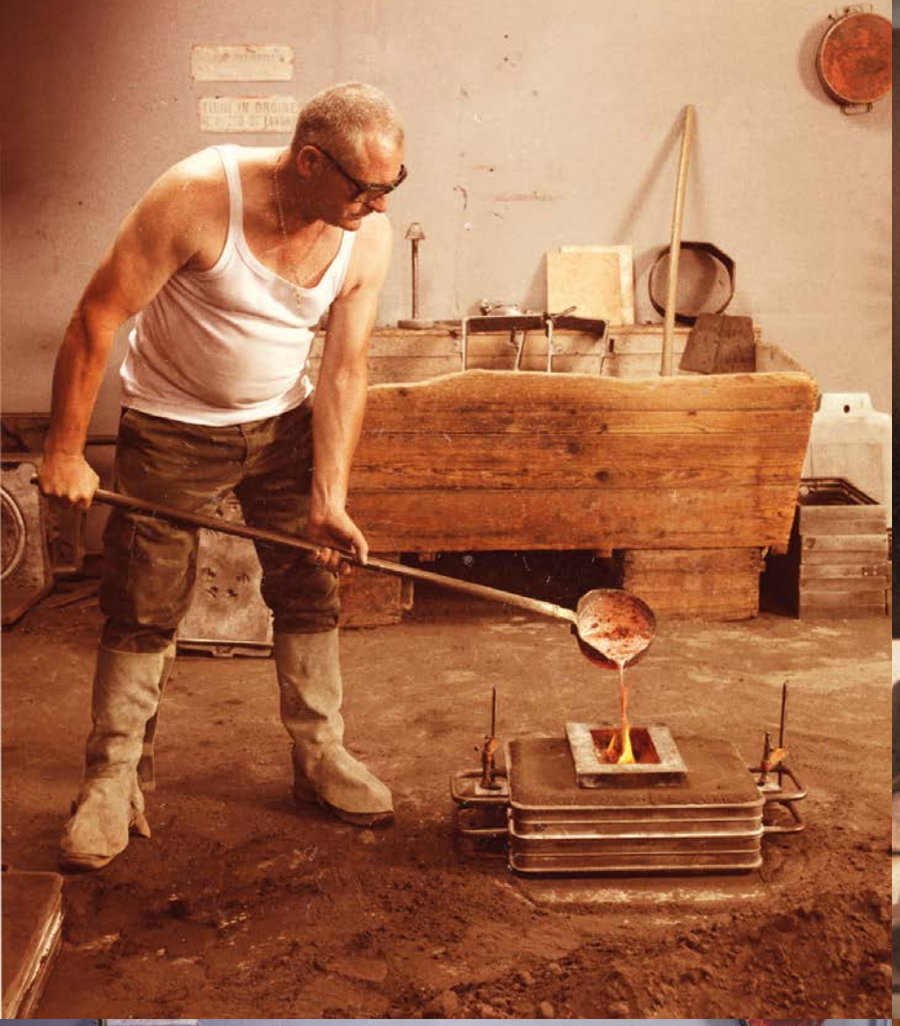
Ghidini Bosco of Villa Carcina, in the province of Brescia, belongs to Italy's manufacturing excellence, thanks to their unparalleled manufacturing skills. A specialist in die casting brass, aluminium and zamak, the company excels in combining advanced technologies and rapid prototyping with traditional craft skills. Their catalogue includes thousands of products, ranging from lighting fixtures to furnishing items, decorative items and handles. Since over 50 years the company has established close ties with international architects and designers to develop custom products and create classical and contemporary art items.
Pieces, those of GHIDINI1961, destined to become iconic, to erase the boundary between art and design and to establish with the public a communion of intentions and views such as to translate into a loyal and lasting relationship, just like artistic artefacts. A demonstration of how the reliability and quality of a brand can become a guarantee of an investment capable of acquiring value over time.

Roberto Ghidini, CEO

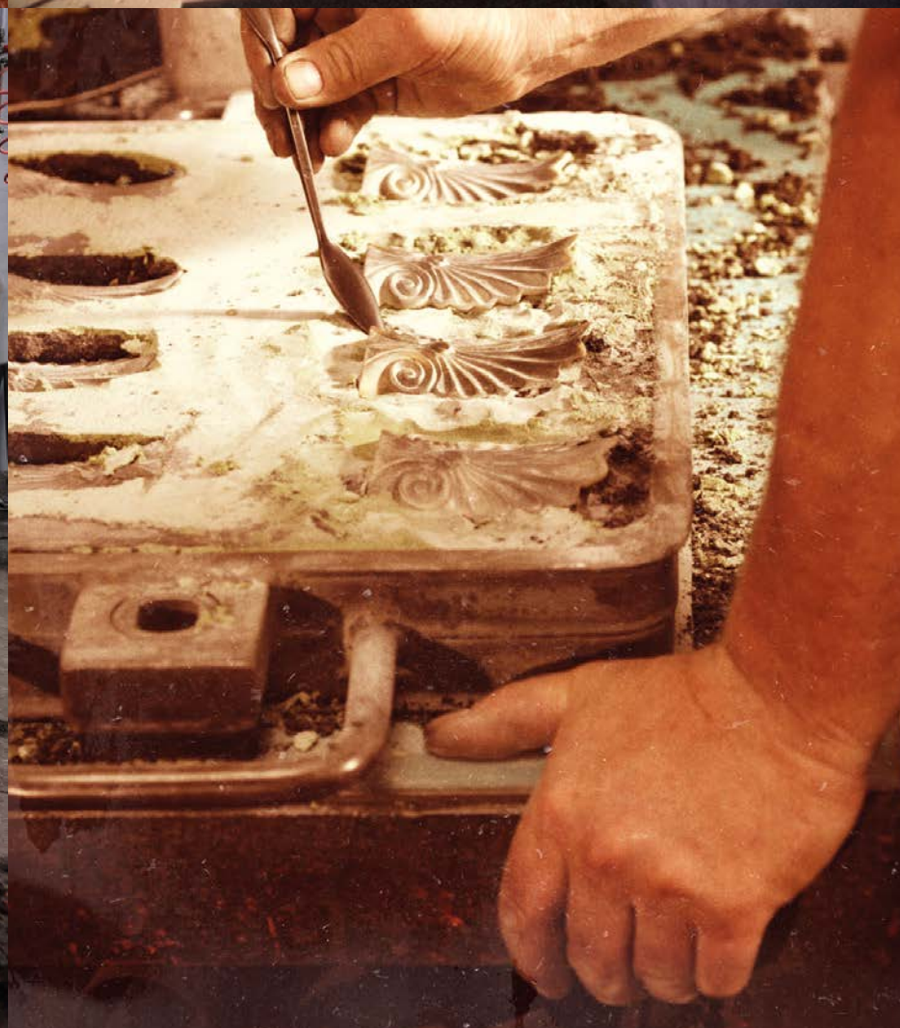
Stefano Giovannoni, Art Director

THE CRAFT

The entire production cycle takes place in-house and is characterised by a meticulous attention to detail: from the idea to the end product, passing through the various processing stages – from pressure die casting to lost wax and gravity casting, from machining to drilling, from satin-finishing to sand-blasting and polishing. These are the solid foundations of GHIDINI1961.
With over 50 years of history behind it, and an entrepreneurial wisdom that has been handed down from father to son, GHIDINI1961 presents furnishings, lamps and home accessories that are true testimonies of great Italian craftsmanship combined with state of the art production technologies, care for materials, aesthetics and attention to detail.
With this foundation, our products are not just meant to decorate a refined environment, but they represent something valuable, to be cared of, that can be passed over through generations thanks to its intrinsic and long lasting value blended with iconic and timeless design.



TENI IN ORDINE
POSTO DI LAVORO



THE DESIGNERS

As Art Director, Stefano Giovannoni has put together a diversified creative team able to enhance the properties of brass. With this valued material which features golden tones and reflections, has developed a remarkable collection of items, furniture and accessories for daily use. All this products are characterised by innovative design and high quality manufacturing, creating an exclusive mood coherent with the nature and the best tradition of brass.
The collection has been designed by renowned international firms such as Aldo Cibic, Alessandro Mendini, Andrea Branzi, Branch Creative, Fernando and Humberto Campana, Noè Duchaufour–Lawrance, Setsu & Shinobu Ito, Richard Hutten, Elisa Giovannoni, Stefano Giovannoni, Paolo Rizzatto, Tomek Rygalik, Studio Job and Nika Zupanc. The collection ranges from large furniture statements to tiny golden accents that decorate and give warmth to stylish residential environments.

THE PRODUCTS

With GHIDINI1961 brass makes its debut in contemporary design, with ennobled rigour. The collection comprises works of art, where brass acquires an almost sculptural power, upholstered furniture, dining tables, cabinets and finely chiselled home accessories, bearing witness to Ghidini's obsession for details.
The series includes almost all articles for use at home, which are interpreted in an unusual joyful way: from surreal champagne coolers in the shape of a large thimble, conceived by Studio Job and one with large circular handles by Richard Hutten, who also designed a coat hanger in the shape of a stem on which there are wide-open winged butterflies and a set of polygonal baskets; to Stefano Giovannoni's Frame collection, where geometric shapes are softened by the velvety surface of brass to create a sleek collection of sofas, armchairs, dining tables and bookshelves.
Allusions to nature continue with Nika Zupanc's platters in the shape of palm leaves, characterised by an outstanding surface finish. In its rich variety, the collection is a compendium of the most significant contemporary creative expressions, interpreted and enhanced by Ghidini's skillful expertise and ability to interpret brass in all its possible forms.

ABBRACCI SOFA

A hug conveys love and friendship, encapsulating a thousand words with elegance and simplicity while sparking the serotonin of happiness and relaxation.

ABBRACCI SOFA Design Lorenza Bozzoli

ABBRACCI ARMCHAIR

Abbracci (hug in Italian) is wrapped with soft nabuck leather crowned by a brass metal tube at the base, underlining its curved and welcoming shape, while the backrest design compliments this simple yet important gesture.

ABBRACCI ARMCHAIR Design Lorenza Bozzoli

ABBRACCI OTTOMAN Design Lorenza Bozzoli

Bold Collection, design Elisa Giovannoni

BOLD

This family of products makes a bold statement with its generous cylindrical foot, connecting its structural perimeter while delimiting the objects that compose it.
The distinctive metal rim that supports the seats, the tables, the cabinets, graphically encompasses the material with which they are made. This is beautifully portrayed in the tables, where the marble tabletop matches with the legs in turned marble, or with the armchairs featuring leather seats and legs of the same color.
With the massive dimensions and the softness of the fittings, the materials are enhanced in their characteristics creating a sculptural effect and giving a distinct personality to each element of the collection.

Tarantino Collection, design Lorenza Bozzoli

TARANTINO

Soft and welcoming, this sofa is inspired by the 70's; a decade that changed our culture forever through freedom and self-discovery.
The Sofa invites you to a world of fantasy where you can indulge in the comfort and coziness of your passions.
Tarantino, as if following a skillful plot, lends itself to composing various original and alternative solutions integrated by the soft goose down cushions covered with textured cotton corduroy proposed in colors inspired by the 70s.

TARANTINO ARMCHAIR Design Lorenza Bozzoli

TARANTINO SOFA Design Lorenza Bozzoli

Frame Collection, design Stefano Giovannoni

FRAME

A new collection composed of sofas, armchairs, dining and coffee tables, bookshelves and cabinets. Everything starts from a simple element: “the joint”, which, combined with elegant rounded 45 degrees extrusions, creates an almost infinite family.
The collection is characterized by organic junctions that, in their possible combinations, create minimal, compact and powerful structures. Frame is built starting from few elements that are able to create a large family with essential lines.

FRAME SOFA Design Stefano Giovannoni

FRAME ARMCHAIR Design Stefano Giovannoni

Frame Armchair, Frame Cabinet, design Stefano Giovannoni

Frame Sofa, Frame Cabinet, design Stefano Giovannoni

KATANA SOFA

The sofa refers to the iconic and seductive shapes of the classic Chesterfield, reinterpreted with renewed elegance, and thanks to the gentle curvature of the leg it resolves the connection with the seat and the back. This makes it enveloping and comfortable, its height and width support a relaxed sociability.
In the elliptical leg, every millimeter has been designed and calibrated, as well as the relationship between seating and structure.
Fittings and lines, grafts and joints, everything is designed for the best harmony. The dialogue between the parties, as in architecture, is for the Milanese architect a perfect orchestration.

KATANA SOFA Design Paolo Rizzatto

Katana Sofa and Lounge Chair, design Paolo Rizzatto

KATANA LOUNGE CHAIR

The series of seatings "Katana" identify and combine in a balanced synthesis the three elements that characterize seats (the legs, the seat, the backrest), but at the same time makes them understandable one separated from the other, enhancing in that way the different specific characteristics and mutual relations.

KATANA LOUNGE CHAIR Design Paolo Rizzatto

LEGS

From the idea of almost a unique object in its perfect craftsmanship, to the system to be built starting from the base. A column made of brass that multiplies to infinity, to be interrupted and resumed to hold glass tops, wood or marble to configure even angular shelves and tables of any sizes and shapes.

Legs Dining Table & Bookshelves, design Paolo Rizzatto

LEGS DINING TABLE Design Paolo Rizzatto

BOTANY TABLE

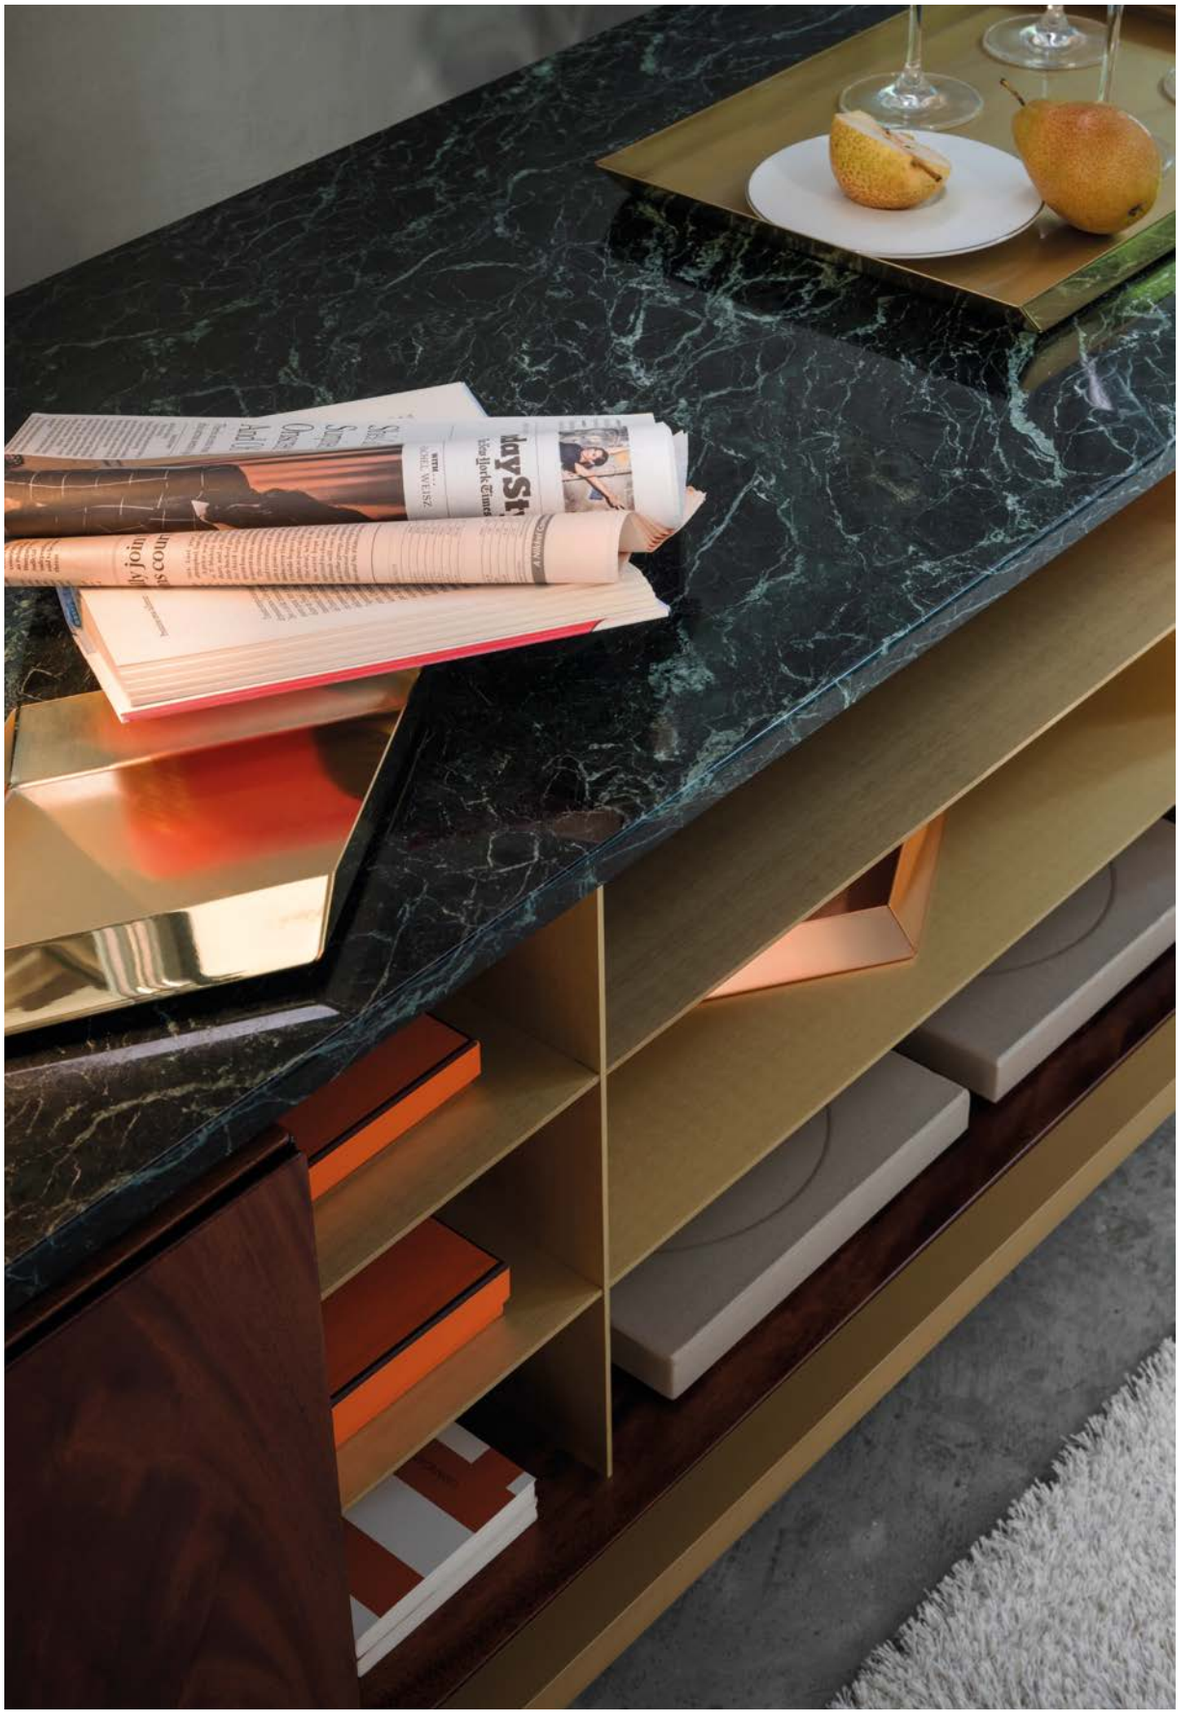
Family of tables characterized by the elegant and sophisticated metal structure supporting the tabletop. Inspiration comes from turn of century outdoor furniture meeting modern high-quality metal crafting. Intricate weaving of gilded rods creates a beautiful visually light three-dimensional ornament.

BOTANY TABLE Design Tomek Rygalik

ZUAN

Different cultural references and needs in time and space are combined in the Zuan cabinet collection.
The classic types of Oriental timeless "cabinets" and the eighteenth-century English "chests" are revisited and updated.
The single piece combines three materials in a variable and versatile way: brass, wood and marble. The brass for the support frames and partition walls, the wood for the containers and the marble for the support surfaces.

Zuan Living Cabinet, design Paolo Rizzatto



New York Times

ZUAN LIVING CABINET

Elegant family of cabinets with essential lines of Oriental flavor. The slender structure in essence is opposed by four slim legs in gilded metal. Each Zuan is recognizable by the detail of the support, a quarter of a circle with great aesthetic and functionality, which defines the character of the storage unit.

ZUAN LIVING CABINET Design Paolo Rizzatto

ZUAN DINING CABINET Design Paolo Rizzatto

LEPORELLO

The height-adjustable stool, subject of which you can appreciate the adaptability with a gesture, in different contexts and users, becomes a precious object, with light or dark oak legs slightly bent and round seat in die casted brass.

LEPORELLO JUNIOR Design Paolo Rizzatto

LEPORELLO SENIOR Design Paolo Rizzatto

TAKE ME TO MIAMI

These pieces instantly evoke stardust-spangled memories of exotic empires past. A titillating triumph that turns the spirit of endless summer malaise into excitement, and distanced detachment into a visceral desire to shop, to have, to run your hands over exquisitely polished surfaces.

SUNSET MIRROR Design Nika Zupanc

Take me to Miami, design Nika Zupanc

ONE ON ONE TABLE LAMP

This lamp speaks to the unique ability to light up different sections of the lamp body, and it expresses and inspires intimacy while talking with someone one on one.
The One on One is composed by two blown glass elements, with the lower being metalized and housing an internal glass cylinder to give a sculptural effect to the light source. The upper glass is frosted to provide a significant brightness.

ONE ON ONE TABLE LAMP Design Branch Creative

One On One Table Lamp, design Branch Creative

Jackfruit Table Lamp, design Campana Brothers

JACKFRUIT TABLE LAMP

The Jackfruit it is composed of two overlapping cylinders, the large stem supports an important brass lampshade decorated with a thousand leaves bent by the wind. The perforated structure and the opening of the lampshade create suggestive radiations of light, like light passing through the dense foliage of a tropical forest.

JACKFRUIT TABLE LAMP Design Campana Brothers

DUSK DAWN

"It's the time when the sun drops below the horizon, leaving a glow that signals the arrival of the night, and gently takes us back to the warm embrace of dawn light in the morning."
An intersection game of two forms to define a soft and geometric ton e, a cloud of light arising from the glass diffuser seated on a solid brass cone.

DUSK DAWN COLLECTION Design Branch Creative

Dusk Dawn Suspension and Floor Lamp, design Branch Creative

MIO BIO TRIO

Mio, Bio and Trio are born from the idea of creating a gentle form, light but consistent and timeless, using brass as a single material.
Thanks to the versatility of the rod it is possible to create articulated and original structures, while the sheets allows to realize the lampshades which spread a golden light, warm and soft. "
The satinated finish give these sleek table lamps a refined and understated allure allowing them to easily feature in residential, hospitality and office environments.

BIO LAMP Design Aldo Cibic

Trio Lamp, design Aldo Cibic

Factory Lamp, design Elisa Giovannoni

SFERE DOUBLE Design Paolo Rizzatto

INDIPENDANT

The inspiration came from utilitarian factory lamps. The key element is the way they hang. A simple, elegant pendant lamp which works in many different environments. The brass gives a warm reflection and they can be used both at home as well as in commercial environments such as shops and restaurants.

INDIPENDANT Design Richard Hutten

KALEIDOS

Large sculptural wall light in stainless steel.
The piece is composed of six mirror blades. The gilded mirrors create a kaleidoscope of golden tones and reflections. The piece can be used as a lamp as it is backlit', explains Fernando Campana. And Humberto adds 'It will be a mirror with the possibility of different sizes and colors. A geometric piece that can produce various designs. We were inspired by Lygia Clark's Bicho critter sculptures'.

BUTTERFLY

Coats flit from coat hanger to coat hanger like butterflies go from one flower to another. Butterflies have been a source of inspiration through art history. From the ancient Egypt, to the Renaissance until now it has always been a theme. The Butterfly coat hanger is both playful and elegant. Available in a single version too – to be hanged to the wall.

BUTTERFLY COAT RACK Design Richard Hutten

JACKFRUIT

Jackfruit is a numbered vases edition, an object that for its exclusivity completes every environment with its strong sculptural presence.
The vases are available in two different finishes. The first is a single block of hand casted bronze. The second mixes two materials, brass and wood, and is divided into three sections: the upper and lower are composed of an articulated brass casting, the central part is in wood. Both are presented as absolute protagonists of the living.

JACKFRUIT VASE Design Campana Brothers

Jackfruit Vase, design Campana Brothers

TORNADO

Spiral of super-glossy brass, a dizzying vortex of reflected light. A thousand liquid rings rise from a hypothetical sea, expand and crown themselves with fragrant flowers.
It's a highly evocative object, fascinating for its shape and shine.
The one designed by the Campana Brothers is a good tornado, the only one that brings color and light into the home.

Bringing together both natural beauty and a sense of finesse, the creative team have mixed colours of yarn in warp and weft to create an elegant yet casual fabric. The result has a unique structured surface that adds and extra dimension to any interior design scheme. With a back cloth that gives extra stability, Clay is perfect for upholstering furniture.

The colours are inspired by the designer's love of both art and interiors and include cool shades of cement, blue, and salvia but also the natural shades of wood and clay.

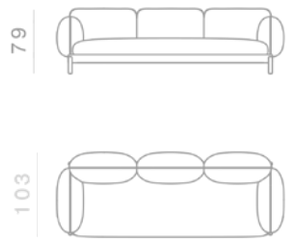
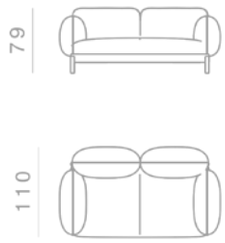
Aluminum legs fixed on internal metal frame, aluminum side support

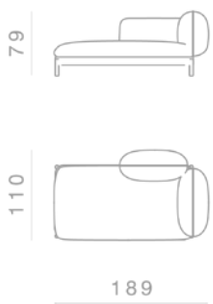
Cushions
Back cushions in high grammage wadding with internal rubber insert, covered with a quilted goose down in cotton lining. Seat cushions in polyurethane rubber of different densities covered with a quilted goose down in cotton lining

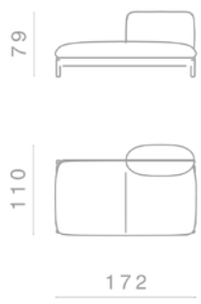
Covers
Covers are not removable

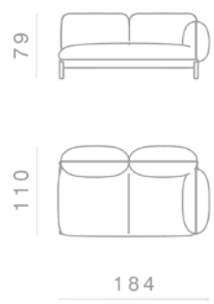
Base
The sofa, armchair and ottoman are made of Italian aluminum, bent in-house at Ghidini1961.
Polished manually, and lacquered with a transparent finish to guarantee a long lasting durability

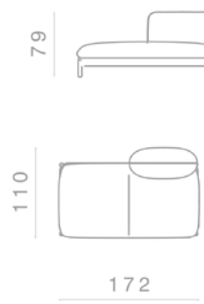












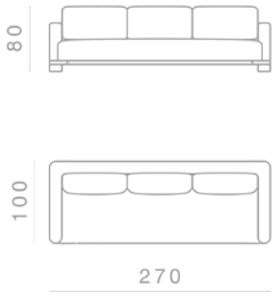
BOLD
Seating System

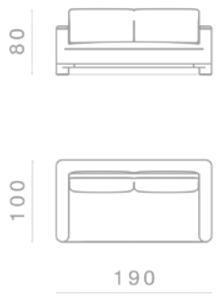
Structure
Die casted aluminum on the angular elements and extruded aluminum for the supporting structure on the perimeter.
Internal structure in wood with metal supporting frame

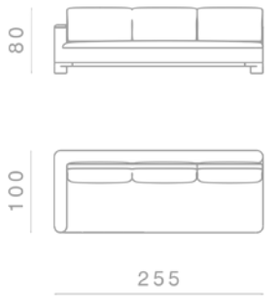
Cushions
Back cushions in high grammage wadding with internal rubber insert.
Seat cushions in polyurethane rubber of different densities

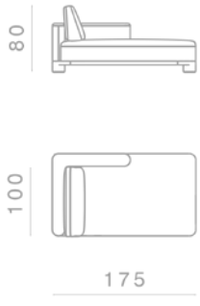
Covers
Back covers are completely removable for both fabric and leather versions

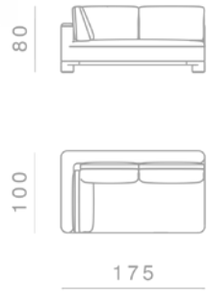
Base
The sofa, armchair and ottoman are based on the Bold family of castings.
The Bold castings are made of Italian aluminum, die casted in-house at Ghidini1961.
Polished manually, and lacquered with a transparent finish to guarantee a long lasting durability

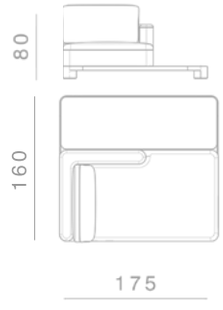












FRAME

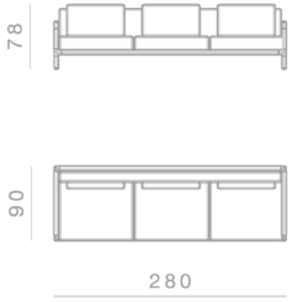
Seating System

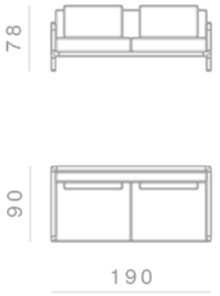
Structure
Base in painted and strapped metal. Backrest in rubber in different densities with plywood panel

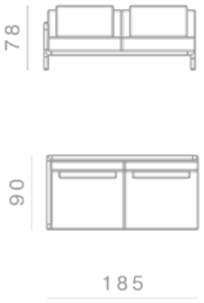
Cushions
Back cushions in high grammage wadding with internal rubber insert. Seat cushions in polyurethane rubber of different densities. Side and back sides in natural cuoio leather

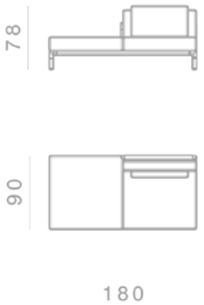
Covers
All covers are completely removable for both fabric and leather versions

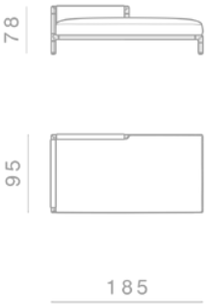
Base
The sofa and armchair is based on the Frame family of castings.
The frame castings are made of Italian alluminium, die casted in-house at Ghidini1961.











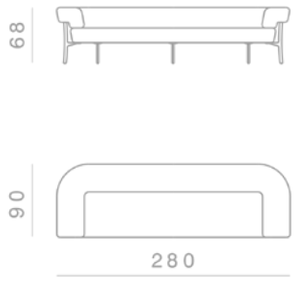
KATANA

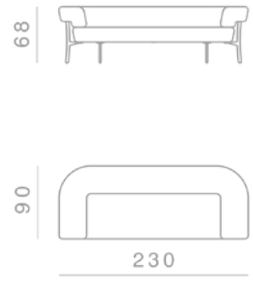
Seating System

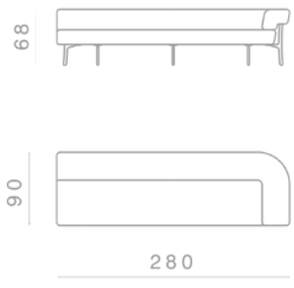
Structure
Belted seat and multilayered, covered in polyurethane foam at different densities covered with quilted goose down in cotton lining. Backrest structure made of plywood covered with polyurethane rubber of different densities, all covered with a quilted goose down in cotton lining

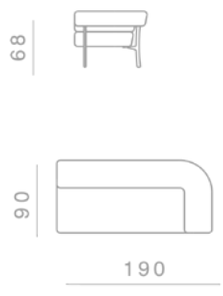
Covers
The sofa covers are not removable

Base
The sofa and armchair is based on the Katana leg.
The Katana leg is made of Italian brass, die casted in-house at Ghidini1961. Polished manually, and lacquered with transparent finish to guarantee a longlasting durability





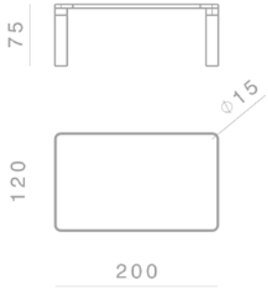


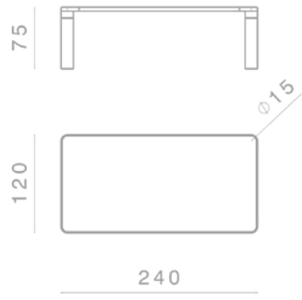


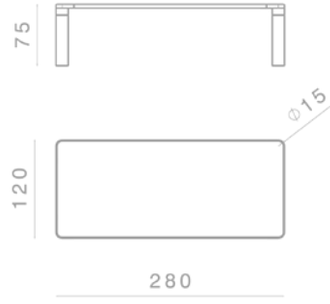
BOLD
Tables

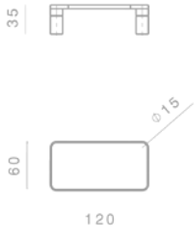
Structure
Die casted aluminum on the angular elements and extruded aluminum for the supporting structure on the perimeter
Legs: marble, wood

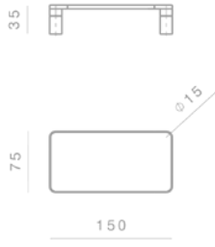
Top Finishes
20mm marble, 20mm wood

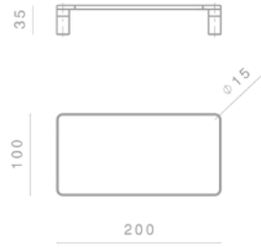












Custom finishes available upon request.

BOTANY

Tables

DINING TABLES:
Structure
Gilded metal rod with diameter 18mm supporting the structure, with 4 supporting elements for the table top. Satin gold finish

COFFEE TABLES:
Structure
Gilded metal rod with diameter 18mm supporting the structure, with 4 supporting elements for the table top. Satin gold finish
