DESIGNER AND MAKER OF  
LUXURY APAISERMARBLE BATHWARE

# *The unveiling* *of* TULLE

Inspired by iconic architectural contours and exquisite haute couture gowns, Tulle is a compelling collection of bathware, handcrafted by apaiser artisans.

Named after the exquisite fabric tulle, which is synonymous with bridal gowns, haute couture and classical ballet, tulle is the embodiment of lightness and sensuality, delicate strength and purity. Dating back to the 18th century, the fabric takes its name from the French city of Tulle, known for its lace and silk production, where it was crafted painstakingly by hand. It can be rigid, voluminous, fashioned into uniform layers, or softly draped to create gentle waves. Its ethereal, transparent qualities and classic forms, transcend time, exclusivity, style and gender.

This chic and romantic fabric has long been a couture staple. Dior, Giambattista Valli, Rodarte and Saint Laurent, among others, have made statements using tulle through various decades and collections. Combined with leather and metal it takes on a tough and androgynous style. Fashioned into a voluminous gown, or ballet costume, it is delicate and feminine. Paired with sportswear, it takes on a casual air and injects a little luxury into the everyday, for anyone.

Just like its namesake, the apaiser Tulle Collection is refined and graceful, whimsical yet disciplined, subtle but arresting. It is a collection which, regardless of your style, will be a piece of performance art in your bathroom.

# *The* COLLECTION

Mimicking the ebb and flow of the fabric, the collection is defined by a perfect profile of slender, uniform reeds. The texture creates depth and interest, while the undulating surface plays with light and shade. The collection is most arresting when finished in soft whites, or moody darks, which emphasise light and shadows highlighting the architectural detail.

The new Tulle collection is comprised of a freestanding bathtub, countertop basin, single and double vanities, and matching side table or shower stool.

All apaiser pieces are handcrafted by master craftsmen in our ateliers from our own apaiserMARBLE® – a unique blend of reclaimed marble, combined with stone and minerals from the Australian Barossa. Our sculptural bathware collections are founded on a belief in sustainable luxury and desire to preserve our beautiful environment.

# *Tulle* BATH

The Tulle Bath is the perfect expression of sensual modernity. The elegant contours and slender profile are decorative without being ornate. It is refined, graceful and beautiful. Synonymous with the collection, the Tulle bath sits aloft an elegant base like a piece of sculpture. Experience a comfortable soak in this generous-sized bath where couture meets ready-to-wear.

# *Tulle* BASIN

Designed with the same tailored profile as the rest of the collection, the Tulle basin is the perfect accompaniment to the Tulle Bath or our other more minimal, freestanding baths. Like the fabric, this beautiful stone basin can be dressed up, or down, to suit your own style.

# *Tulle* VANITIES

The sophisticated detailing of the Tulle vanities, elevate this bathroom staple. Favoured for their seamless integration of benchtop and basin, these vanities are functional pieces of bathroom art. Available in both single or double forms, they can either float as a wall-hung piece or sit aloft complementary joinery.

# *Tulle* BATH STOOL

The Tulle bath stool is the final touch of luxury in any bathroom sanctuary, regardless of style. Designed for use as a side table to a bath or shower seat, this apaiserMARBLE bath stool adds a finishing flourish to any freestanding baths from the apaiser collections.
