El diseño surge al observar las formas que la tensión superficial de las gotas de agua adopta en superficies planas. El resultado son ocho formas diferentes que pueden ser combinadas entre sí de infinitas maneras. El resultado final es un diseño amable, flexible que puede coexistir y generar cualquier espacio arquitectónico, debido a su forma orgánica inspirada por la naturaleza.

The design came from observations of how surface tension, forms drops of water on flat surfaces. We ended up with eight different shapes that all can be combined with each other, in any configuration. The result is a friendly looking design of upholstered ottomans/stools/benches, that can co-exist in any kind of architecture, because the organic shapes are in fact inspired by nature itself.
