

ALUBEL, WE BELIEVE IN YOUR CREATIVITY.

Born from a strong instinct of the founding partners at the end of the 80s, today Alubel is a benchmark in the market of roof systems and wall claddings.

Technological innovation, exemplary quality standards and a surprising ability to combine state-of-the-art visions with the solidity of craftsmanship skills are the distinguishing features of this group whose vast and updated range of products encompasses a multitude of roofing and cladding systems as well as soundproofing and insulating solutions for the industrial, civil and public sectors.
