98

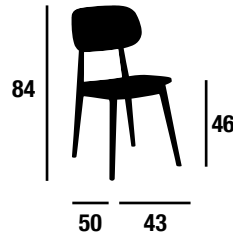

A modern wooden chair with a curved backrest and a upholstered seat. The chair is made of light-colored wood and has a simple, minimalist design. The seat is upholstered in a dark grey fabric. The backrest is made of a single piece of wood with a curved shape. The chair is shown from a side profile against a white background.

# NOTE TECNICHE / TECHNICAL DETAILS

## MODELLI / DATI / MISURE

I dati e le misure riportate nel catalogo sono puramente indicativi e mai impegnativi.

L'azienda si riserva il diritto di apportare tutte le modifiche che riterrà opportune ai relativi modelli, compresa la soppressione di alcuni, senza alcun obbligo di preavviso.

## MATERIE PLASTICHE

I policarbonati (PC) hanno un'alta resistenza al carico ed alla flessione ma hanno anche il problema di avere superfici tenere e facilmente graffiabili; tale peculiarità intrinseca nel materiale non può costituire motivo di reclamo. Il polipropilene è un materiale più opaco, più duro e ruvido ma meno soggetto a scalfirsi.

## IMBOTTITURE

Tutti i prodotti che presentano delle imbottiture possono essere realizzati con rivestimento fornito dal cliente. In tal caso è necessario che il materiale sia idoneo alla lavorazione e che venga inviato in porto franco, accompagnato da un documento di trasporto e da una nota nella quale siano chiaramente indicati il nominativo del cliente, il numero d'ordine, il riferimento ed il verso di applicazione.

## FINITURE LEGNO

La finitura del legno può essere realizzata su campione fornito dal cliente. A questo proposito è necessario informarsi preventivamente presso l'azienda per la fattibilità, e successivamente, inviare il campione indicando chiaramente sullo stesso il nome del cliente, il numero di ordine ed il riferimento. La finitura sarà realizzata il più simile possibile al campione, nei limiti delle caratteristiche tecniche del materiale, tenendo conto che sono sempre possibili lievi differenze tra i vari elementi che compongono il prodotto. Si precisa che in caso di prodotti acquistati in tempi diversi possono verificarsi variazioni di colore e/o di tonalità. Tutte queste differenze non possono costituire motivo di reclamo e/o di merce resa.

## MODELS / SPECIFICATIONS / DIMENSIONS

The specifications and dimensions indicated in the catalogue are approximate and not binding.

The factory reserves the right to change its models as deemed necessary to cancel some products without prior notice.

## PLASTIC MATERIALS

Polycarbonates have high resistance to load and pressure but have mild and easy scratching surface; this peculiarity of the material shall not give rise to claims. Polypropylene is matter, harder and rougher but less easy to engrave.

## PADDING

All products with upholstered parts can be made in customer own material (COM). In this case the material has to be suitable to be processed. The customer has to send it to the factory free of charge together with a slip showing the name of the customer, the number of order, the reference and the side of application.

## WOOD FINISHES

The wood finish can be made according to customer's reference. In this case information should be ask to the factory about it, at first. Afterwards the sample has to be sent with customer's name, number of the order and reference name written on it. The finish will be made as far as closer to the sample, taking into consideration the technical properties of the materials. Slight color differences of the element that make up the products are always possible. In case of products purchased in different times, changes in color and/or shades are likely. All these differences shall not give rise to claim.
