SOLID WOOD ONLY[®]

Solid Wood Only is our dictum. We show no compromise on manufacturing our entire range of furniture with this unique and timeless material because we believe that the natural beauty of only solid wood is spiritful.

Timber

White Oak / *Quercus Sp.*

The color of White Oak shifts gradually from light to dark brown the further one gets into its heartwood. It is an ideal wood for furniture making. It is resistant to decay and adaptable to fine finishing techniques.

Teakwood FSC / *Tectona Grandis.*

The color of Teakwood is golden like amber. It is beautiful, extremely durable and requires little maintenance, which make teakwood is reclaimed from old buildings and structures. We receive the wood still with nails and original paint, before we restore it and bring it to new life. We especially love our teak furniture for the story they tell.

Black Walnut / *Juglans Nigra.*

The Black Walnut is loved for its dark heartwood. Its color is brown with shades of purple and streaks of gold. The wood is hard and durable yet pleasant to work with, and it forms into the highest quality furniture.

KATCHWORK

Exquisite details merged with fine, simplistic lines, define the Katchwork collection. The blend of patterns and textures from solid wood and leather brings richness and depth to the design, which borrows its inspiration from 1950s and 1960s Scandinavia but with a contemporary flare. Ideal for urbanites, the collection speaks of the owner's love for retro modern designs.
