COLLECTION

01.

The color of White Oak shifts gradually from light to dark brown the further one gets into its heartwood. It is an ideal wood for furniture making. It is resistant to decay and adaptable to fine finishing techniques.

02.

The color of teakwood is golden like amber. It is beautiful, extremely durable and requires little maintenance, which make teakwood excellent for furniture.

03.

The Black Walnut is loved for its dark heartwood. Its color is brown with shades of purple and streaks of gold. The wood is hard and durable yet pleasant to work with, and it forms into the highest quality furniture.
