SPEAR

Door Hardware

The imponent Spear Door Pull was inspired by the Celtic sun god that possessed the “Invincible Spear”. A legend has it that the spear was blazingly hot, and it became hotter the longer it was used. It was stored in a vat of water at night to keep it from catching fire and scorching the earth. Honoring Celtic culture and myths, PullCast’s designers projected this mythical big size door made with polished brass and Alabastro pull to bring a powerful statement into the main doors.

MATERIALS & FINISHES

The paramount of our ethos is to present a ***Standard Customization Luxury Service***, to complement your unique architectural or interior design project.

Each ***unique masterpiece*** is handcrafted and hand finished, as such product appearances may vary in colour and texture when in comparison to the images shown in PullCast Catalogue.

Including natural stones, which may vary too in colour. For further informations, please speak directly with a PullCast Brand Ambassador.

PullCast sets out the following materials as standard - Brass or Aluminium.
For Standard Finishes - Polished, Brushed or Aged Finishes.

Exclusively entitled for ***TWIST COLLECTION*** presents the following standard finishes - Gold Plated, Nickel Plated, Black Nickel Plated or Copper Plated Finishes.

All our artwork can be complemented with a UV varnish coating or remain with a natural finish.

Note: No Upcharge for Standard Materials & Finishes

WHEN PASSIONATELY IN SEARCH FOR AUTHENTICITY, WE HAVE STUMBLED INTO DECORATIVE HARDWARE

As a team, we believe it's about discovering your personal and professionals' essentials, where resides your essence, build it and be open to discoveries. That's the challenge, that's the beauty in the discovery process. Keep a children's spirit while working on becoming a master. The children spirit will give you the inspiration you need to think and materialize beyond the ordinary. The pursuit of mastery will give you the skills you need to conquer authenticity.

We believe it's when we start exploring deeper and with meaning, is when arises knowledge, brilliant discoveries that we can explore with maturity and thought, in order to draw down a richer future in inspiration, beauty and functionality, for all of us.

We are a team of artisans, designers, art connoisseurs, marketers passionately living daily discoveries, leading us to those moments of rapture and revelation, truly enlightenment moments where creations arise. A team of passionate individuals searching for their own unique expression through their own art.

After those singular expressions, follows an understanding in unity of those authentic and singular discoveries. A moment where all elements are aligned, just like the moment when naturally a river runs down to the ocean. Is the individuality in our diversity of experiences and discoveries that builds every single unique experience we provide, uniqueness ready to be carried out to the world.

It's always a temptation for us to go beyond what is or appears to be. We refer To Be, as for the same meaning related to human existence. These words perfectly describe the rise of our vision, intended to be the pursuit of an imminent concept of jewellery in the Decorative Hardware Market.

*Our Temptations are pinpointed by a circle aggregating
the NATURAL WORLD, HERITAGE, CULTURE, DESIGN, INNOVATION
all having the same importance and impact in our final encounterings of new creations.*

We tend to explore the once-in-a-millennium moments of enlightenment with great study and influences around the history of art, design, crafts and trends movements. It's awe-inspiring the power of passionate union of solo but connected expertise and discoveries, what it can deliver and impact the world's future.

It has been an accelerated growth for PullCast, though we believe it comes directly from being passionate, fearless, believers and eternal seekers of the world's most pure beauty.

A signature expression out to the world, a drive of being connected and truly passionate about our daily tasks in our daily lives. The ecstatic aw of breaking rules and frontiers, to see further. Here resonates the secret of unapparelled creations.

*Truth to be told ... pure beauty is everywhere.
Wishing you all, absolutely unique experiences through life.*
