

HOPPE Suited Range

About HOPPE (UK)

HOPPE (UK) Ltd. is a specialist manufacturer and supplier of door and window hardware. Established in the UK in 1988, we have become the trusted partner of our customers through our focus on innovation, quality and performance.

As a member of HOPPE Group with its German origins, HOPPE (UK) benefits highly from more than 60 years of experience and knowledge in the field of architectural hardware. HOPPE Group is a company run by the owning family who have always based its leadership on high ethical standards based on values. This attitude creates a correspondingly high quality of interaction with employees and customers alike making "HOPPE – Handle of excellence." a brand-name that stands for innovation and customer-oriented added value. This way HOPPE door and window handles will offer the best possible benefit/price ratio to every market segment.

Complementary products to operate and secure the door such as closers, locks, hinges, access control, etc. are provided by "ARRONE – the Complete Range", a brand of HOPPE Group. ARRONE offers a comprehensive range of products designed for use within the commercial and residential door market. The brand is recognised for offering affordable quality hardware products.

Our dedicated staff is highly skilled, GAI trained and provides award winning service. We invest heavily in stock of core items to satisfy our customers' needs. A purpose built, state-of-the-art distribution centre at Gailey Park, seven miles north of Wolverhampton, provides the ideal location for distribution throughout the UK and Ireland. At 50,000 square feet it offers light and modern facilities for both employees and customers with a fully equipped showroom/meeting room available.

HOPPE (UK) strives for continued excellence through our commitment to long-term trusting partnerships with employees, customers and suppliers and the regions in which the company is located, thus allowing for the best overall value proposition to our strategic market partners – we call that Total Beneficial Advantage.

Find matching handles and accessories with ease

Specifying door and window hardware with matching accessories has never been easier. Have you seen a HOPPE door or window handle that suits your needs? Now you'll find a range of letter plates, knockers, numerals and letters that match the handle perfectly.

It means you can specify door and window hardware without the hassle of searching for complementary accessories.

Matching products in every HOPPE finish

Our complementary products are available in all HOPPE colours and finishes, including our most popular options:

- Polished chrome
- Polished gold
- Powder coated white
- Powder coated black

The benefits

- All products conform to the HOPPE standards of innovation, quality and performance
- Specify handles without the hassle of finding accessories to match
- A full range of matching colours and finishes

A complete range of products designed to meet your needs

The HOPPE range of door and window hardware is complemented perfectly by our ARRONE branded products. Featuring a comprehensive range of products – including door closers, locks, hinges and access control – the ARRONE brand is recognised for offering affordable quality hardware for use within the commercial and residential door market.

HOPPE Complementary Range

HOPPE – Handle of excellence.

Enjoy the feel of quality. Indeed, touching a quality handle reassures you that you have made the right choice. Hardware with this logo  is a brand-name product which keeps its promise of quality to the customer.

HOPPE is the European market leader in the development, manufacturing, and marketing of hardware systems for doors and windows. This company, run by the owning family and based in Switzerland, was founded in 1952, and employs almost 3,000 employees worldwide.

Simple installation

Quick-Fit¹

Installing a door handle usually involves many steps and manual operations. It can be a time consuming and tedious process. However, door handles with the **HOPPE Quick-Fit connection** are installed in just one simple movement. It is quick, easy and secure.

Resista[®] – HOPPE's surface guarantee

Resista[®]

HOPPE Resista[®] hardware has a 10-year surface guarantee. They are therefore ideal for coastal areas and highly frequented areas such as public buildings, shops and hotels.

All products with the Resista[®] surface guarantee have undergone continual quality testing and, when new, conform to the requirements of the European standard **EN 1670** ("Locks and hardware – corrosion resistance – requirements and test methods").

Secured by Design

Police Preferred Specification

Enhanced Security Requirements for Door Assemblies

PAS 24:2012 has been produced by BSI to provide a method for testing and assessing the enhanced security performance requirements of external door sets and window types intended to resist the levels and methods of attack experienced in the UK and normally associated with the casual or opportunist burglar.

Annex A refers to the assessment of Security hardware and cylinder testing. As a supplier of Security Hardware our products will be assessed against Annex A, the door supplier will be responsible for providing evidence of full compliance to PAS 24:2012.

HOPPE security handle sets have been designed to withstand and exceed the 3 minutes attack time contained within PAS 24:2012, Clause A.3.2. Part 1 for security hardware.

ARRONE® – developing and enhancing the product range

Under the ARRONE® brand name, HOPPE Group is able to offer a comprehensive range of architectural quality door and window hardware along with accessories. Many products are manufactured exclusively by leading hardware manufacturers throughout the world. Within the extensive range are door closers, floor springs, emergency exit devices, cylinders, architectural mortice lock cases, hinges, disabled fittings, signs and accessories.

ARRONE® products are designed and manufactured to compliment the HOPPE range of aluminium, brass, stainless steel and nylon door and window hardware.

Launched in 1993 the ARRONE® product range is now firmly recognised and established within the market place. However, ever growing demands for additional feature benefits and product enhancements coupled with changes in legislation has in turn led to extensive product developments and additions throughout the various ranges.

These new products, many of which where applicable, have been successfully type tested and certified to the latest European standards and also satisfy the UK construction product regulations for Ironmongery.
