A COMPANY WORK

IT Vibieffe, azienda che produce poltrone e divani, nasce nel 1967 in una terra da sempre sinonimo di arredamento di alta qualità: la Brianza. Oggi è una realtà conosciuta e consolidata anche internazionalmente. Fin dalla sua fondazione, l'obiettivo che l'azienda si propone di perseguire è quello di realizzare elementi d'arredo – in particolare imbottiti come divani, poltrone e divani-letto, a cui si sono affiancati nel tempo complementi e proposte di sicura affidabilità, durata nel tempo, piacevolezza estetica, grande versatilità e comodità.

Comfort e design sono, infatti, i tratti distintivi delle creazioni Vibieffe nate dalla creatività di famosi architetti e designer del settore, firme conosciute nel panorama d'arredo che hanno saputo dare ai prodotti quel tocco di distinzione che fa la differenza.

Ma Vibieffe si contraddistingue non solo per la qualità dei suoi prodotti. Tra i valori aggiunti che hanno reso l'azienda di Lissone una realtà concreta ed affidabile vi è la grande esperienza ed abilità artigianale della manodopera di cui si avvale, tradotte con tecnologie ed attrezzature all'avanguardia che hanno permesso la sperimentazione anche di materiali innovativi e di lavorazioni alternative. E non meno importante, la solerte assistenza pre- e post-vendita ai propri clienti.

Oggi i prodotti Vibieffe sono conosciuti e commercializzati in tutto il mondo, anche grazie alla partecipazione dell'azienda a vetrine internazionali prestigiose, eventi e manifestazioni fieristiche come il Salone del Mobile di Milano, Imm Colonia, il Salone di Parigi Now e i Saloni Crocus di Mosca.

EN *A skilled maker of sofas and armchairs, Vibieffe was set up in 1967 in an area that has long been a centre for the production of top quality furniture: Brianza. Today, the company is a consolidated manufacturer that benefits from international renown in the sector. From its beginnings, Vibieffe mission has been the creation of quality furniture – especially upholstered items such as sofas, armchairs, and sofa beds – to which we subsequently added a range of reliable, hard-wearing and aesthetically beautiful complementary elements, all sharing the utmost versatility and practicality.*

Comfort and design are marks of distinction in Vibieffe products, fashioned with the creativity of famous furniture architects and designers, top names in the furniture galaxy who have imparted a touch of pure class that makes a real difference.

But the quality of our products is not the only mark of distinction of Vibieffe. Among the added values that have made the Company, based in Lissone in the Milan area, into a solid and reliable player, is the enormous experience and craftsmanship of our workforce, leveraged through the use of advanced technology and tooling that have allowed us to experiment with innovative materials and alternative processes. Of equal importance is the prompt and responsive pre- and post-sales assistance offered to all our customers.

Today, Vibieffe products are known and available all over the world, thanks also to our participation in the top international exhibitions, events and fairs including Salone del Mobile in Milan, Imm in Cologne, the Now! furniture show in Paris, and the Crocus Expo International Exhibition centre events in Moscow.

BEDSPRINGS

SISTEMA UP&DOWN

_Predisposizione angolare in metallo per rete fissa che permette di variare a diverse altezze l'inserimento del materasso all'interno della base. Spostando il supporto all'interno dell'angolare è possibile predisporre il materasso ad altezze di -4, -7 e -10 centimetri rispetto al bordo superiore della base.

_Metal corner connection for fixed base which allows to vary at different heights the fitting of the mattress inside the base. Moving the support inside the corner connection, it is possible to arrange the mattress to -4, -7 and -10 cm with respect to the upper edge of the base.

PATENT - Design by Gianluigi Landoni

SETTING 1
-4cm

SETTING 2
-7cm

SETTING 3
-10cm

RETE FLAT

_Rete letto da inserimento e autoportante. Piano letto ortopedico a doghe in faggio evaporato da 68 mm. Struttura in acciaio ad alta resistenza da 40x30 mm. Verniciatura a forno con polveri epossidiche colore grigio alluminio.

_Inserting and self-carrying bed frame. Orthopedic bed base with multi-layer dried beech wood staves 68 mm. High resistance steel structure 40x30 mm. Furnace painting with epoxy powder in steel grey color.

L DELFI

_Materasso composito ad alta traspirazione formato da una lastra sostenitiva sagomata in Aquapur densità 40 di 15 cm di spessore; cuscinetto intermedio di 2 cm di esploso per arieggiare il piano; strato da 3 cm in Memory Forma ultra density che garantisce una accoglienza veramente straordinaria.

_High traspiring composite product made of a moulded supporting 15 cms high sheet of Aquapur, in density 40; intermediate pad of 2 cms of exploded foam to air the plane. 3 cms of Memory Forma ultra density which grant an extraordinary comfort.

Particolare della lastra di supporto in Aquapur da 15 cm.
15 cms Aquapur support sheet detail.

La superficie in Memory Forma ultradensity è capace di adattarsi alla compressione ed alla conformazione corporea.
The Memory Forma ultra density surface is suitable to the forms and to the body pressure.

1. Lastra di Aquapur che sostiene e rinforza D 40 H 15 cm.
Aquapur sheet which sustain and reinforce. D 40 H 15 cms.
2. Lastra di esploso per arieggiare il piano H 2 cm.
Exploded foam sheet to air the plane. H 2 cms.
3. Lastra di Memory Forma ultra desity D 100 H 3 cm.
Ultra density Memory Forma sheet D 100 H 3 cms.

SETA

La seta è una delle fibre tessili più antiche. Giunta dalla Cina nei porti del Mediterraneo, si diffuse in Europa come genere di lusso, particolarmente apprezzata dai Greci e dai Romani. Ancora oggi la seta affascina per la lucentezza e la grande ricchezza di sfumature. Morbida e fresca, la seta trasmette sensazioni di benessere e favorisce il riposo.

La seta ha la capacità di trattenere il calore; è un tessuto elastico e resistente con eccezionali proprietà di morbidezza e brillantezza. Tessuto anallergico.

SILK

Silk is one of the most ancient textile fibres. Silk came from China to the Mediterranean harbours and spread as a luxury good, particularly appreciated by the Greek and the Romans. Nowadays, silk still continues to fascinate thanks to its regal appearance. Silk reflects light with a wide range of shades. Thanks to its softness and freshness, it gives sensations of wellbeing and favour rest.

LATENA

_Materasso prodotto con schiuma Aqupur densità 40 accoppiato ad un viscoelastico densità 45 alle quali vengono aggiunti prodotti naturali a base di germe di soia. La particolare lavorazione dei piani conferisce al prodotto una elevata versatilità. È completamente traspirante e grazie alla sua caratteristica di cellula aperta garantisce una veloce dispersione di calore e umidità.

_Mattress produced by the high-density water-foamed polyurethane Aqupur density 40 endowed with exceptional resilience. This is combined with viscoelastic foam density 45 to which natural soya-bean substances are added. The particular shape of the plane gives a total versatility. It's completely transpiring and thanks to its open-cell structure garants a fast dispersion of the heat and the humidity.

Lastra superiore in schiuma viscoelastica nata da blocco.
Foam cutted superior plane.

Soia e acqua, la sintesi perfetta.
Soya and water, perfect synthesis.

COTTON

Fibra vegetale ottenuta dalle capsule mature della pianta del cotone. Per eccellenza considerato un prodotto ad alta stabilità, leggero, morbido e accogliente.

COTTON

Vegetal fiber extracted from the cotton tree. Considered a high stability, light and soft product.

L SILVER

_Materasso in schiuma di lattice ricavato dall'Hevea Brasiliensis, naturale al 95%. Disponibile con rivestimento in tessuto Amicor Pure antiacaro e antibatterico, con cerniera singola o con fascia 3D traspirante a due cerniere.

_Mattress in foam latex extracted from Hevea Brasiliensis, 95% natural. Available with cover in Amicor fabric, anti-acarus and anti-bacterial, with single zip or with 3D transpiring band and 2 zips.

Versione sfoderabile monocerniera.
Removable version with single zip.

Versione sfoderabile traspirante.
Removable version with 3D transpiring band and two zips.

Struttura portante - lastra H 16 cm a fori passanti a 7 zone.
Support structure - latex slab H 16 cm with 7 differentiated areas.

AMICOR PURE

Amicor pure è la copertura più efficace antimico-tica e antimicrobica, inoltre non è soltanto impermeabile, ma previene anche la riproduzione di funghi, interrompendo il ciclo vitale degli acari. Amicor pure è una fibra intelligente con additivi antibatterici e antimicotici al suo interno, così questi additivi vengono rilasciati lentamente e garantiscono una protezione a lunga durata. È una soluzione ottimale per chi soffre di allergie, ma anche per chi vuole avere un materasso sempre fresco e salutare.

ERGOPLUS

_Materasso con sistema di molleggio insacchettato singolarmente e diviso in 7 zone differenziate così ogni molla reagisce indipendente alle sollecitazioni del corpo. Uno strato di poliuretano espanso bugnato di 3cm per lato garantisce un confort ulteriore. E' disponibile nella versione bordata chiusa non sfoderabile oppure con rivestimento in tessuto Tencel a cerniera singola o con fascia 3D traspirante a 2 cerniere.

_Mattress with a system of springs individually wrapped up in bags divided in 7 differentiated areas, so each spring can react independent to the body pressure. A layer of 3cm slab expanded polyurethane per side grants a further comfort. It's available in fixed hem version and with removable Tencel fabric with single zip or with 3D transpiring band with 2 zips.

Versione sfoderabile traspirante.
Removable version with 3D transpiring band and two zips.

Rivestimento trapuntato con imbottitura anallergica accoppiata con espanso senza CFC.
Quilted cover with allergenic padding linked with CFC free polyurethane.

1. 330 molle insacchettate (nel singolo) 660 molle insacchettate (nel matrimoniale) H 14 cm Ø filo 1,7-1,9 mm.
330 pocket springs (single) 660 pocket springs (double) H 14 cm Ø wire 1,7-1,9 mm.
2. Poliuretano espanso bugnato H 3 cm (per lato).
Ashlar foam polyurethane H 3 cm (each side).
3. Tampone perimetrale H 14 cm.
Perimeter block H 14 cm.

TENCEL®
Tencel® è una fibra naturale derivante dalla cellulosa del legno e dà una sensazione estremamente piacevole di morbidezza, il comfort è garantito dalla sua ottima capacità traspirante e di assorbire l'umidità.
Tencel® è soffice come la seta, resistente come il poliestere, fresco come il lino, caldo come la lana ed assorbente come il cotone.
• alta capacità assorbente.
• traspirante: elimina la crescita di batteri.
• brillante e morbido anche dopo ripetuti lavaggi.

TENCEL®
Tencel® is a natural fiber made from wood pulp cellulose and offers an extremely pleasant sensation of softness. The comfort is provided by its transpiring capacity and absorbency of humidity.
Tencel® is soft as silk, strong as polyester, cool as linen, warm as wool and as absorbent as cotton.
• high absorbency.
• transpiring: cancel the bacterial growth.
• shining and soft also after several washings.

BIOCOTTON
Particolare del rivestimento trapuntato accoppiato con lana sul lato invernale e cotone sul lato estivo.
BIOCOTTON
Quilted cover detail joined with wool on winter side and cotton on summer side.
